1. Policy Purpose

This policy ensures Mission's winery and vineyards produce quality wine in a sustainable manner while meeting legislative requirements.

It describes Mission's environmental policies

2. Distribution

- This policy is available to the public through the company website or is available on request.
- Staff are introduced to this policy on induction. It is also available on the internal Sharepoint/One Drive in the ISO manual and in the Policy manual.

3. Policy

Mission strives to minimise its impacts on the environment with specific reference to soils, waste, atmosphere, energy usage and water consumption. Our goal is to be leaders in our industry.

Continual improvement

Mission Estate Winery will achieve this by firstly measuring our environmental impacts **then** planning to minimise these impacts. Through this ongoing process we will improve our environmental impact and develop industry leading practices.

Compliance with existing environmental legislation

Mission Estate Winery complies with all environmental legislation and underpins it's position by certification to Sustainable Wine Growing New Zealand and ISO 14001:2015 standards.

Policy Management

Mission Estate Winery's Environmental Policy objectives are reviewed from time to time in line with the Company's strategy. An environmental management report on the year's activities is developed and shared with the company board and shareholder.
