

Reaching New Zealand shores in 1838, pioneering French missionaries founded a legacy. From their many accomplishments now interwoven throughout history came New Zealand's first winery, Mission in 1851. Their inspiration, a legacy we continue.

# MISSION SINCE 1851

## ESTATE 2020 Merlot Cabernet

Hawke's Bay | New Zealand

### New Zealand Winegrowing

Central to the success of New Zealand as a world-renowned wine growing region is the temperate maritime climate and the free-draining alluvial soils.

The growing season is long, providing perfect conditions for slow ripening and full flavour development. Cool nights and warm days retain fruit acidity which lends a freshness and vibrancy, highly characteristic of New Zealand wine styles.

## **Sustainability Practices**

Mission has strong sustainability credentials as a founding member of Sustainable Winegrowing New Zealand and holding ISO 14001 environmental certification since 1998.

With organics and organic conversions underway in some vineyards Mission has an ongoing commitment to sustainable viticulture and winemaking practices.

In 2007 the Mission winery underwent a multi-million dollar upgrade designed to maximise energy and water efficiencies.

Today, Mission is proud to produce some of New Zealand's finest wines in the most environmentally friendly manner.

#### Soils

Gravel beds, free-draining alluvial soils and stony terraces.

#### **Growing Season**

Warm and dry delivering intense and characterful wines.

## Winemaking Technique

Fermented on skins, the must was carefully mixed each day. Once fermented the wine remained a further 16 days on skins for texture. Merlot (81%) provides a soft yet full and fleshy mid-palate, the structure, aromatic intensity and length of finish is enhanced by Cabernet Sauvignon (17%), with a small proportion of Cabernet Franc (2%) adding depth and complexity.

#### Hawke's Bay Region

Located on the east coast of the North Island, Hawke's Bay wine region is one of the warmest winegrowing regions in New Zealand.

The long and warm growing season provides for excellent ripening conditions and full flavour development.

## **Technical Specifications**

Alcohol	13.1%
Acidity	5.6 g/L
Residual Sugar	<1 g/L
рН	3.7

#### **Cellar Potential**

Enjoy now or cellar carefully for 10 years +
